

In re Application of
Masaki Morimatsu
Takeo Ito

App. No.: 09/723016
Filed: November 27, 2000
Conf. No.: 5642
Title: COMPONENT OF A ROTATING
ELECTRICAL MACHINE
Examiner: K. Addison
Art Unit: 2834

FURTHER RENEWED REQUEST

Commissioner for Patents
P.O. Box 1450
Arlington, VA 22313-1450

Appellant has requested either a rehearing in this appeal, or preferably a reconsideration of the Board's Decision dated July 28, 2006, to present certain evidence, on August 9, 2006, but no action has yet been taken on that request and technically the time for appeal to the CAFC would have expire technically on September 28, 2006 and even though appellant intends to file such an appeal if the Board denies this request, and a follow up was filed on September 22, 2006. However the Board still has not replied.

Since there are allowed claims in this case, appellant has no intention of abandoning either the application or the allowed claims. Therefore the Board is most respectfully requested to reopen prosecution and if it chooses not to grant the request for reconsideration so advise the undersigned and to set a new time for reply.

If this will not be granted, a call to the undersigned today would be appreciated to prevent abandonment.

Respectfully submitted:

A handwritten signature in dark ink, appearing to read 'Ernest A. Beutler', with a long horizontal flourish extending to the right.
